Education

UNIVERSITY OF CALIFORNIA, LOS ANGELES

Linguistics and Computer Science BA, 3.8 GPA

Los Angeles, CA

2025-Present

Experience

spotcheck.lol

Full-Stack Developer

2025-Present

- Built and designed a daily puzzle website with a content creator that reached 10,000+ users
- Shipped an admin dashboard for non-technical administrators that streamlined creation of 30+ puzzles
- Integrated third-party MetaTFT API through direct communication with the API developer
- Managed the Twitter/X and Discord community, triaging feedback into bug fixes and features

Gen.G

Business Practicum Trainee

2026

- Collaborated with a team of 10 to develop business strategies for tournament partnerships
- Built a data report using Python to translate raw performance metrics into clear, digestible insights for non-technical stakeholders, supporting leadership decision-making

Game Jam Projects (Lyn' Jack, 5 Second Rule, Frosty Fisher, Event Horizon, Countdown Courier)

Programmer / Producer

2024-Present

- Led cross-functional teams of first-time and experienced participants across three jams, managing Notion boards to coordinate art, music, and programming on schedule
- Mentored programmers and UI designers new to game development on Git workflow and debugging
- Won the Gamecrafters Collective Summer Jam with Lyn' Jack

RealXP Lab

Unity Gameplay Prototyping Extern

2025

- Shipped gameplay features in an Agile environment with weekly sprint cycles and a Kanban board, delivering playable builds for 5 consecutive iterations in a team of 10
- Applied professional source control practices including trunk-based development, file locking, and merge conflict resolution in Git and Bitbucket

ACM Studio @ UCLA

Officer

Los Angeles, CA

2025-Present

- Co-ran weekly game development workshops for 20+ students and built club website resources to help new developers overcome game jam obstacles

Teaching

Tutor / Coach

2021-Present

- Coached competitive Pokémon TCG players to international success, including one student reaching top 10 in the world, while tutoring math and SAT students to consistent letter-grade gains

Skills

Agile ceremonies, Agentic AI, Python, Kanban boards, sprint planning, code reviews, Unity, C#, React, TypeScript, Next.js, Firebase, Git, Bitbucket, Figma, C++, RESTful APIs, Node.js
